Interesting info from IHS. Let's check in w/FMCV's attorney next week to confirm. I think it would still be prudent to sign AOC, even if FM supports the HAMP.

Hello Roberto,

One for the issues which you and I discussed during our recent phone conversation was the commitment of the First Mesa Consolidated Villages (FMCV) and its Business Manager, Ivan Sidney, to fully support the HAMP regional water system as planned. I have discussed this issue with personnel in our office and also with Hopi Utility Corporation personnel and it seems quite clear to all that Ivan and the FMCV are fully on-board with the HAMP as a best practice solution to the arsenic water supply issues at First and Second Mesa villages on the Hopi reservation. It seems that once full funding of the project was announced, with no need for a loan to be repaid by the Hopi villages, any lingering opposition to the HAMP quickly dissipated.

There should no longer be the need for concern on this issue by your agency.

Best regards,

*Brad*
